

Proper Cart Placement is the Key to Automated Service

- ✓ Have your cart at the curb by 7 a.m. on your collection day.
- ✓ Do not place carts on the sidewalk for collection.
- ✓ Place the cart at least 5 feet from other objects like trees, poles, fire hydrants, mailboxes, electrical boxes, cable boxes, etc., and at least 5 feet away from cars so the automated arm can reach your cart safely.
- ✓ Please have this same distance of 5 feet between your recycling and waste carts.
- ✓ Don't lean anything against the cart or place your cart under a tree.
- ✓ Place carts with wheels touching the curb or within 1 foot of the street edge for proper collection.
- ✓ Remember to have the handle toward your house, with the lid closed.
- ✓ Please don't allow children to play in or around the carts. Republic Services' trucks use mechanical arms to pick up the recycling and waste carts.
